

Introduction to the Tools of Sustaining All Life

In this class, we will offer an in-depth look at tools that have helped people address emotional barriers to effective climate organizing. We will share details of our theory and provide opportunities to practice our listening tools in pairs and small groups. The class will demonstrate how using these tools can help us address common struggles experienced by climate activists and organizers as we work to build the movement needed to tackle the climate emergency.

Wednesday, September 20, 1:30 – 3:00 pm

and Friday, September 22, 1:30 – 3:00 pm

optional listening circle follows

12 East 41st Street, 7th Floor

Tools for Climate Organizing

Sustaining All Life (SAL) and United to End Racism (UER) are international grassroots organizations working to end the climate emergency within the context of ending all divisions among people. As part of New York City Climate Week, SAL/UER will present many interactive workshops that address barriers to resolving the climate emergency. Our events will also show participants how to exchange effective listening to free themselves from the emotional harm resulting from oppression and other hurtful experiences—harm that can interfere with thinking about and responding effectively to the climate crisis.
