Tools for Climate Organizing

Sustaining All Life (SAL) and United to End Racism (UER) are international grassroots organizations working to end the climate emergency within the context of ending all divisions among people. As part of New York City Climate Week, SAL/UER will present many interactive workshops that address barriers to resolving the climate emergency. Our events will also show participants how to exchange effective listening to free themselves from the emotional harm resulting from oppression and other hurtful experiences—harm that can interfere with thinking about and responding effectively to the climate crisis.
