

MY FIVE YEAR CLIMATE PLAN:

Creating more awareness within my region and beyond.

Be abreast with current policies on Climate change and also share with my region.

Encourage and train more leaders on this to be fully involved.

- Collaborate with other organizations that work with CC and also bring what we have in RC to them and also learn from them.
- Encourage regular listening exchange and enough discharge on this topic.
- Tink and listen will be on going on CC
- Climate moment in all rc classes and webinars with in my region:
- Mitigating action on climate change will be incorporated by all.
- We try to use human resources we have that work with our government to influence their decision and action towards this.
- Young people and young adults will be encouraged to be part of this and space will be given to them to take reasonable and approved actions on this.
- Market women, Local chiefs and traditional rulers are main actors and will be good resources to reach the grass root.
- Radio giggles in major languages works wonders. We will explore it in sensitization of the people, especially the grass root.
- Financing this project will be discussed and new ideas from all stakeholders.
- Plastic pollution will be one of our focus also deforestation as these are menaces we are dealing with.
- All hands on deck with slogan; “ no action is small”.

Love,
C.N.O.
