

RV-J 5 year climate plan - 2022 - 2027

Overall

Act on the basis of radical love and vision for the good of all, not panic or obligation, or a need to prove anything

Organize on the basis of personal relationships – building relationships with everyone at every opportunity – let all these be meaningful to me

Support others to take on projects-- bigger and bigger; not doing it all myself

Take bold, radical positions and be in the streets

Climate Movement

Serve on CAN Steering Committee (the local climate coalition where I live)

Chair the “Racism, White Supremacy and Climate Justice Working Group” of CAN

Participate in rallies, marches, CD, at virtually every opportunity – take people with me every time, if possible

Take action to get more people willing and able to go into the streets

Find ways to share ideas and writing with the movement beyond my home community

Public policy and opinion

Publish nationally and develop video presentations on climate debt, distribution of wealth, racism and climate, ...

Continue blog – expand readership

Start, or join, an organization working to get the U.S. to pay its fair share to developing nations. Get to know some of the wide world leaders on this topic

Identify key issues in the U.S. – and work to address them in and out of RC

- Fair share of climate debt
- Racism

- Distribution of wealth
- Fetish of centrism
- Capitalism
- Distress patterns (“Logical thinking about a future society”)
- Getting large numbers of people into the streets

RC Community

Lead groups for leaders on racism toward African women/Africans – support for Janet Kabue

Be available as a counselor to RCers in many places on leading on climate in RC, on activism in the world, on personal struggles w/ climate and early feelings

Contribute to further development of RC resources on using our tools outside RC

Develop consulting bureau of RCers to assist those using our tools in the wide world

Lead workshops for white people on climate change and racism

Build a small cadre of RCers who care about each other and are supporting each other (and me) to do the work – with an understanding of being a group committed to each other – sharing goal setting, accountability, and discharge.

Help develop more RC climate leaders

Provide work and assistance to Diane and Janet at their direction; and to Teresa

Make my region one where virtually every RCer has a good understanding of climate change, is discharging well on it, and taking some action both to effect change and to reach others.

Continue to lead RC discharge calls for leaders of COE support groups and working on racism in the climate movement

Support SAL projects

My capacity and re-emergence

Increase my ability to talk with people of all viewpoints, making connection, helping them feel liked and respected, while communicating RC tools and perspectives and being interested in what they have to say

Make more indigenous friends

Read other people's 5 year plans – keep working on this one

Discharge on being a leader of “the resistance” if authoritarianism prevails in the U.S

Read and become better informed about authoritarianism start with “On Tyranny”

Discharge on early terror, aloneness, and powerlessness and on opening my heart, being unguarded, and vulnerable

Do the discharge work needed to be able to do the above with attention, driven by love, not obligation or need to prove anything.

Personal carbon footprint

Replace my home hot water heater with air source heat pump water heater

Limit flying and driving

Make my diet more thoroughly plant-based
