

WORKSHOPS

SAL/UER workshops provide current thinking on topics of climate justice. They are interactive, giving participants opportunities to address the theme in listening pairs.

After the presentation, participants will:

- ★ Listen to each other tell their experiences related to the theme.
- ★ Learn the approaches used by SAL/UER to heal from the damage of oppression, increase our effectiveness in the climate justice movement, and prevent burnout.
- ★ Hear from people who have applied these tools to resolve hurtful experiences and become more effective at reaching our goals for a sustainable future.

FORUMS

Forums welcome individuals to speak from their personal experience of how they and their communities are being impacted by the climate emergency now, or about their work as climate activists. Speakers will have 3-5 minutes to communicate to the group. Several times during the forum, members of the audience will pair up to process what we have heard and listen to each other's stories.

SUPPORT GROUPS & CLASSES

Support groups (1 hour) follow workshops and forums and give each participant equal time to be heard. Led by an experienced group leader, we'll have an opportunity to share about our lives, our work on the climate emergency, our successes and challenges.

Classes will share the theory, tools and practices of SAL/UER. Topics include healing from the hurts and oppression, listening exchanges, and appreciating ourselves and our work.

Classes will be held September 21st - 25th, from 5:30pm to 6:30pm at 4 West 43rd Street, New York City, in the Green Room.
